Council Work Session Summary

Meeting: Work Session - Oct 26 2020

TITLE: MOBILE INTEGRATED HEALTH.

PURPOSE(S) OF DISCUSSION: ☒ Inform/Update ☐ Direction/Guidance ☐ Legislative
Development/Policy

BACKGROUND / KEY ISSUES / CONTRIBUTING FACTORS:

Local fire departments provide fire-based emergency medical services (EMS) to respond to 9-1-1 calls, as is the case with Las Cruces Fire Department (LCFD). Fire-based EMS aims to provide emergency evaluation, treatment, stabilization, and, if needed, transport to the point of definitive care. EMS services are being accessed across the United States through 9-1-1 for non-emergent needs with increasing frequency. People use these 9-1-1 services because they lack access to healthcare providers and other resources. However, this 9-1-1 use decreases resource availability to respond to higher acuity calls and lengthens response times to other critical emergencies. LCFD's mission is to provide compassionate care and dedication to all emergency calls. There is an intense desire within LCFD to help individuals who call 9-1-1 frequently to access healthcare without any acute life-threatening condition. Our Mobile Integrated Healthcare program has recognized that addressing high utilizing individuals is an essential strategy for managing 9-1-1 response, healthcare costs, and providing these individuals a better quality of life.
